

## MEET Your Photographer

Hi! I'm Lauren, owner and photographer at Lauren Elise Photography. I'm passionate about what I do and love working with clients to create a meaningful session, complete with heirloom artwork to treasure for generations to come. I tailor each session to my clients' individuality in an effort to capture each person's uniqueness. I'm both easy going and a little crazy, but quirky and fun.

When I'm not with clients, you can typically find me cuddling with my sweet husband and little loves. We adore life together, and feel truly blessed. I'm a connoisseur of fine coffee, and love all things girly. I'm sure I could win an award at being a pro shopper and thrifter. I'm a lover of things that are classic, timeless, vintage, and beautiful.

Other creative outlets I enjoy include, reading, playing piano, cooking, traveling, and interior decorating. I've told you a few things about me, now I can't wait to learn about you!

These next few pages will give you insight as to what your session entails, tips, expectations, and more. If you have any questions please reach out to me!
